Education

University of Westminster

London, England

BSc (Hons). in Computer Science

Expected Graduation, May 2027

- **Related Coursework:** Data Structures & Algorithms, Software Engineering with Advanced Java, Web Desing & Frontend Development, Object-Oriented Programming with Java, Mobile Applications Development with Kotlin

Informatic Institute of Technology

Colombo 6, Sri Lanka

International Foundation Program

Sep 2023 – May 2024

- **Related Coursework:** Computer Programming, Mathematics for Computing, Digital Skills for Higher Education, Working with Data, Designing Innovative Solution, Introduction to Programming

EXPERIENCE

Growia

Remote

Assosiate Software Engineer

May 2025 – Aug 2026

- Led full stack development of the customer retention platform using Next.js and React, & Managed the majority of the company's DevOps operations including publishing Docker images to maintaining the CI/CD pipelines.
- Utilized tools and workflows : Kubernetes, Azure Nginx, Linux, AWS, k8s and Git

Growia

Remote

Software Engineer Internship

Jun 2024 – Mar 2025

- Contribute to frontend development of frontend web applications development using React, delivering responsive, high-performance user interfaces designs using Tailwind CSS, and GSAP
- Utilized frontend tools and workflows : Jest Testing, Git, CI/CD pipelines

PROJECTS

Patient Management System - Microservices Backend

- Built a production ready patient management backend with services for patients, billing, analytics and authentication through REST, gRPC and Kafka events behind a JWT-secured API gateway
- **Tech Stack:** Java, Spring Boot, Spring Cloud Gateway,PostgreSQL, gRPC, Apache Kafka, Docker, AWS

Rentaly - Enterprise Property Rental Web App

- Developed an property rental platform with map based geospatial property search, role-based dashboards for tenant and lease management workflow, with payment tracking & fully deployed on AWS
- **Tech Stack:** Next.js,Redux Toolkit, Node.js, Express.js, Prisma, PostgreSQL, Mapbox, AWS, Shadcn/ui

GopherSocial - Social Network REST API

- Integrated a social network REST API with user registration and email activation, token-based authentication and authorization, posts, following with rate limiting, caching and automated CI/CD deployment to the cloud
- **Tech Stack:** Go, PostgreSQL, Redis, Docker, Swagger, GitHub Actions, Google Cloud

LEADERSHIP EXPERIENCE

Requita

SDGP

Founder & CEO

Jul 2024 – Sep 2025

- Led the development of a desktop based recruitment application aimed to build a secure interview platform to create fair opportunities for skilled candidates. Engineered core system architecture, including authentication

SKILLS

Languages & Frameworks: Java, Go, TypeScript, JavaScript, SQL

Backend: Spring Boot Node.js, Express.js, REST APIs, gRPC, Apache Kafka, Prisma, Convex, JWT Authentication, Clerk, AWS

Database: MongoDB, PostgreSQL (Supabase), Mongoose, Schema Design,

DevOps & Tools: Docker, GitHub Actions (CI/CD), AWS (EC2, RDS, S3)

ADDITIONAL

Certifications : Hacker Rank Certificate on Frontend Development, Hacker Rank Certificate Problem Solving Intermediate, Hacker Rank Certificate Rest API Intermediate, Hacker Rank Certificate SQL Intermediate
