Education

University of Westminster

London, England

BSc (Hons). in Computer Science

Expected Graduation, May 2027

- **Related Coursework:** Data Structures & Algorithms, Software Engineering with Advanced Java, Web Desing & Frontend Development, Object-Oriented Programming with Java, Mobile Applications Development with Kotlin

Informatic Institute of Technology

Colombo 6, Sri Lanka

International Foundation Program

Sep 2023 – May 2024

- **Related Coursework:** Computer Programming, Mathematics for Computing, Digital Skills for Higher Education, Working with Data, Designing Innovative Solution, Introduction to Programming

EXPERIENCE

Growia

Remote

Assosiate Software Engineer

May 2025 – Aug 2026

- Led full stack development of the customer retention platform using Spring and React, & Managed the majority of the company's DevOps operations including publishing Docker images to maintaining the CI/CD pipelines.
- Utilized tools and workflows : Spring Security, System Desing, Docker and Github Actions

Growia

Remote

Software Engineer Internship

Jun 2024 – Mar 2025

- Contribute to frontend development of frontend web applications using React, delivering responsive, high performing user interfaces designs using Tailwind CSS, and GSAP
- Utilized frontend tools and workflows : Jest Testing, Git, CI/CD pipelines

PROJECTS

Patient Management System - Microservices Healthcare Application

- Developed a patient management platform as five Spring Boot microservices behind a JWT-secured API gateway, with gRPC billing-account creation, Kafka event-driven analytics with a React dashboard
- **Tech Stack:** Java, Spring Boot, Spring Cloud Gateway,PostgreSQL, gRPC, Kafka, Docker, React, Tailwind CSS

Subtrack – Subscription Management REST API

- Build a subscription tracking API using Node.js & Express backend with JWT authentication, Arcjet rate limiting, bot detection & email validation, and automated renewal reminder through Upstash Workflow
- **Tech Stack:** Node.js, Express.js, MongoDB, Mongoose, JWT, Arcjet, Upstash Workflows, Nodemailer

Movefy – Movie Discovery Website

- Integrated a movie discovery webssite using React frontend with TMDB-powered free API service, client-side routing with React Router, and managed favourites through React Context, deployed on a Vercel
- **Tech Stack:** React, Vite, JavaScript, React Router, TMDP API, CSS, Vercel

LEADERSHIP EXPERIENCE

Requita

SDGP

Founder & CEO

Jul 2024 – Sep 2025

- Led the development of a desktop based recruitment application aimed to build a secure interview platform to create fair opportunities for skilled candidates. Engineered core system architecture, including authentication

SKILLS

Languages & Frameworks: Java, TypeScript, JavaScript, SQL

Backend: Spring Boot,Node.js, Express.js, REST APIs, gRPC, Apache Kafka, Prisma, Convex, JWT Authentication, Clerk, AWS

Database: MongoDB, PostgreSQL, BaaS(Supabase), Schema Design

DevOps & Tools: Docker, GitHub Actions (CI/CD)

ADDITIONAL

Certifications : Hacker Rank Certificate on Frontend Development, Hacker Rank Certificate Problem Solving Intermediate, Hacker Rank Certificate Rest API Intermediate, Hacker Rank Certificate SQL Intermediate
